2.1 Horses qualify for the heats according to the ranking drawn up on the basis of two criteria (by adding up the points generated as absolute values), namely:
-- total prize money won during their career
-- total prize money won in the last six months.

In the event of a tie in the rankings, a draw will be held to determine the order.

2.2 The ranking will be drawn up on Tuesday 20 October at 12.00 for the 2026 edition. Any appeals regarding the ranking must be submitted, on pain of forfeiture, to the Administration via certified email (aoo.ippica@pec.masaf.gov.it) by 4.00 pm on the same day; after this time, the ranking is official and cannot be amended.

2.3 Top-seeded horses: the winners of Group I races reserved for three-year-olds in the reference year

(Giovannardi, Nazionale, Città di Napoli, Marangoni, Derby and Oaks) are considered top-seeded. The heats, each with a maximum of 12 runners, are drawn up based on the ranking according to the scheme set out below:

- Heat A: 1, 4, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23;

- heat B: 2, 3, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24;

with the top positions allocated to the seeded runners according to the previously drawn up ranking.

allocating the top places to the seeded horses in accordance with the previously drawn up ranking.

The remaining places will be allocated to the other horses, again following the initial ranking, whilst avoiding, as far as possible, any connections in terms of stables or trainers. Should a connection in terms of stables or trainers arise, the next horse in line will be selected for the heat.

2.4 The entry deadline for the heats is Thursday 22 October at 11.00 for the 2026 edition. Payment for the entry fee, in the amount set out in Article 1 of these Regulations, must be made by the deadline specified in this paragraph to the organising racing company; it is understood that no confirmation fee is required for this race. A horse entered for the race may not take part in any other races until the Grand Prix has been run.

2.5 Failure by the owner to pay the amounts specified in these Regulations for entries and/or for the declaration of starters within the stipulated deadlines shall result in the exclusion of that horse from participation in the Grand Prix.

2.6 Should there be an imbalance in the number of horses starting in the heats, those with the highest ranking may be moved from the heat with the greatest number of competitors to another heat until the best numerical balance is achieved, at the sole discretion of the Administration.

2.7 Following the declaration of entrants, the draw for starting numbers takes place, in accordance with the specified criteria, by drawing lots first for the front row and then for the second row, from among the horses declared as entrants in their respective heats.

2.8 The draw for start numbers will take place on Friday 23 October at 12.00 for the 2026 edition and must be conducted by public draw in the presence of representatives of the relevant categories, subject to the possibility of the event being televised.

2.9 Any horse declared to be running that is subsequently withdrawn after the draw for start numbers has taken place shall be barred from all racecourses for 20 days from the day of the race.

2.10 Reserves duly declared as starters shall take the place of withdrawn horses in incomplete heats until Monday 26 October at 10.30 am for the 2026 edition, in accordance with the following scheme: - the first reserve in Heat A, with the highest number in the row affected by the withdrawal; - the second reserve in Heat B, with the highest number in the row affected by the withdrawal. And so on until the heats are complete or the available reserves are exhausted. 2.11 Where there are multiple replacements in the same row, numbers are allocated according to the order of the performance ranking.

3.1 Ten competitors are admitted to the final, selected as follows: the top five finishers from each heat. In the event of a tie between two or more horses for sixth place in a single heat, the horse with the highest score in the performance criteria ranking shall qualify for the final, without prejudice to the validity of the draw provided for in Article 2, paragraph 1, of these Regulations in the event of a tie in the rankings. 3.2 Start numbers for the Final are allocated at the discretion of the trainer, the owner or a delegated representative, by means of a written notification to the Technical Office of the racing club within 20 minutes of the conclusion of the last of the two heats scheduled for the racing day on 1 November. At the time of declaring the runners for the race itself, the name of the person making the selection must be indicated on the entry form. The presence of a representative to make the selection is compulsory. In the event of the absence of the trainer, the owner or a person delegated by them, the number shall nevertheless be allocated by draw, excluding, of course, any numbers already allocated. 3.3 The selection takes place according to the following procedure: - first to choose are the two winning horses from the respective heats, in the order determined by the best overall time recorded; next to choose are the two horses that finished second in their respective heats, following the same procedure as for the winners (based on the best time recorded); - choose they then select the two horses that finished in third place, in accordance with the procedure set out above (based on the best total time), followed by the two horses that finished in fourth place, then those in fifth and finally those in sixth place, in accordance with the procedure set out above. 3.4 Any tie regarding the priorities set out in the preceding paragraph shall be resolved by taking into account the best score in the parameters ranking, without prejudice to the validity of the draw provided for in Article 2(1) of these Regulations for ties in the ranking. The selection of the number shall be deemed a declaration by the entrants.
